

GOLD DUST is better than soap and elbow grease for pots and pans. It digs deep into cracks and corners and sterilizes everything it touches

There is nothing about the kitchen which collects so much dirt, grease and grime as pots and pans; and there is nothing that will clean them so quickly, easily and thoroughly as GOLD DUST.

GOLD DUST cleanses until the last evidence of dirt has gone, and removes every trace of germ life.

You are probably not aware that pots and pans which are used constantly contain hidden nests of little wigglers—germs of putrefaction and decay. GOLD DUST removes these, because it sterilizes as well as cleans, and leaves your utensils clean, pure, wholesome, safe.

GOLD DUST will work wonders in cleansing and polishing milk cans, pails, bottles and dairy utensils, pots, pans and kettles.

"Let the GOLD DUST Tunes do your work"

Follow Me

By F. A. MITCHEL

Copyright, 1910, by American Press Association.

I am known as Meserou the climber. The guide upon whom I always relied when climbing in the region about Interlaken was Carl Weber, a German Swiss. He was brave and faithful, and I became very much attached to him. I had him with me in every climb I made out of Interlaken to the summits of the Wetterhorn, Elger, Monk and Jungfrau. And frequently when I attempted ascents in the southern Alps I would send for him to come to me. He always responded with alacrity, and I knew that he would rather guide me than any one else.

After an adventure we had on the Matterhorn his affection for me was greatly enhanced. We were alone on the side of that razor backed peak when, walking on a snow edge, a crust gave way beneath me, and I fell. Weber, knowing that the only way to prevent his being dragged after me was to throw himself on the opposite side, did so. There we hung, each dangling over a precipice divided by a sharp edge of rock. Unfortunately Weber's right arm had become caught in a loop of the rope and a bone snapped.

"Herr," he called, "I cannot pull myself up. My arm is broken. I think there is snow beneath you. The rope must be cut. You will fall a short distance and may not be hurt."

"And you?"

"I shall go down a thousand feet." "Then the rope shall not be cut. I will go up hand over hand and, straddling the edge, will pull you up."

This I did. I expected Weber would be overjoyed at his escape, but he did not appear to be so much pleased as one would suppose.

"Ach!" he exclaimed bitterly. "I shall never be the same man after having been saved by one I have guided."

This was the last time Weber and I ever climbed together. Not long afterward, while conducting a party of Englishmen to the summit of Mont Blanc, the snow gave way beneath them, an avalanche was started, and they were all lost. Weber's body was found buried under thirty feet of snow, head down, his alpenstock held tight in the grip of his icy hand.

On hearing of my faithful guide's death I resolved that I would never climb again. This was partly because to climb without Weber would not be enjoyable and partly because his death caused me to realize that there is no safety in Alpine climbing even with the best guide. I refrained for two years; then, business calling me to Europe, I found myself near my beloved Switzerland in the summer season and ran down to Chamounix for a

Nasal Catarrh

Henry L. Britton Says It Is Easy to Get Rid Of.

"My head, nose and glands leading to my eyes and nose were stopped up and swollen. I tried several so-called catarrh cures, but Hyomel, used thoroughly, did the curing. There is nothing too good to say in favor of Hyomel. It cured my nasal catarrh."—Henry L. Britton, Front Street, Eaton Rapids, Mich.

Hyomel (pronounced High-o-mel) cures catarrh, because it gets where the germs are, and destroys them. It is made of Australian eucalyptus, mixed with other healing antiseptics. When breathed over the irritated and inflamed membrane, it gives relief in two minutes.

Used regularly for a few weeks, it will build up and heal the germ-infested membrane and drive out catarrh. If you own a small Hyomel pocket inhaler, you can get a bottle of Hyomel at druggists everywhere, or at the Red Cross Pharmacy, for only 50 cents. If you do not own a Hyomel inhaler, ask for a complete outfit, the price of which is \$1.00. It is guaranteed to cure catarrh, coughs, colds, croup or sore throat, or money back.

EASY WAY OUT FOR BALLINGER

Plan to Abolish Interior Department

ESTABLISH PUBLIC WORKS

New Cabinet Officer to Have Charge of Panama Canal, Big Irrigation Projects, and All Forestry Work.

Washington, May 25.—One of the most important government problems the president will be asked to consider during his summer vacation at Beverly will be the creation of a new executive branch of the government, to be known as the department of public works.

The proposed plan contemplates the abolition of the interior department, or the substitution of a bureau to do the work it now performs. Support for the proposition is found among the president's political advisers, and the leading business men of the country.

In the preliminary discussions which have been had regarding the movement, it has been pointed out that the suggestion has in no way for its object the abolishing of Secretary of the Interior Ballinger. It is pointed out that such a sweeping change in the administration of governmental affairs would require much time to be put into execution, and it would not interfere with the present head of the interior department at this time.

The main features of the new department, as they have already been explained to Mr. Taft, are in brief as follows: It shall have charge of the Panama canal, and all the work incidental to that project's upkeep and support. It shall look after the irrigation projects throughout the country. It shall take over all the conservation and forestry work now being done by different departments of the government. It shall have the control of such minor work as is contemplated in the proposed bureau of public health and such activities as are now found in the various movements for the protection of water supplies and water power sites. It shall have under it, as a subcommittee bureau, branch to look after a small area of public lands which now remain in possession of the government.

Strong hope of the plan being adopted is found among Mr. Taft's advisers.

EXTRA SESSION NO PRIMARY BILL

This the Prospect Looming Up at Albany, N. Y. With the Situation Hopelessly Tangled.

Albany, N. Y., May 25.—The Democratic members of the Senate in conference before the session yesterday agreed unanimously to fight for the passage of the new Civil Service bill, which would compromise direct nominations bill unless the feature suspending the direct primaries in years when a mayor is elected in New York be eliminated absolutely.

Harring Loh, they agreed to accept the direct nomination principle embodied in the bill and not quibble over the general details. Every Democratic senator was present.

As expressed by Leader Grady at the conclusion of the conference, "the New York clause is obviously a political juggle which no Democrat can support. We are willing to accept any decent compromise bill that is a genuine direct nomination measure."

The whole primary situation appears to be in a hopeless tangle, with prospect of an extra session looming larger hourly. The assembly leaders are determined not to pass any compromise measure, inasmuch as the House has gone on record as favoring the Meade-Phillips "organization" bill. The Republican senators are more or less at sea, some of them favoring the compromise measure, others declaring their intention to vote for the Meade-Phillips bill.

Without the support of Democratic votes, if this attitude is continued, neither bill will pass. The Republican senators will hold another conference to try to find a way out of the woods.

Senator Hiramman yesterday moved to take from the Senate table his motion to reconsider the vote by which the Human-Grady bill was defeated, but his motion was defeated by a vote of 18 to 21.

WILL BEGIN INVESTIGATION.

Resolution Calling for Probing Passed by New York Legislature.

Albany, N. Y., May 25.—The resolution providing for a general investigation of alleged official corrupt practices in this state during the past few years was approved by both houses of the legislature yesterday. The matter came up first in the Senate on a motion to reconsider the vote by which the assembly substitute was adopted last week. Senator Hiramman led the fight to have the Senate dissent from the assembly amendments and appoint a committee to investigate.

Following the action of the Senate, the assembly concurred in the amendments made in the upper house without debate or opposition.

KILLED BY LABOR LEADER.

Westville, Ill., Man Shot in Quarrel by Secretary of Miners' Union.

Danville, Ill., May 25.—Joseph Smith was shot and killed at Westville Monday night by John Welsh, secretary of the local miners' union. Welsh recently dismissed an Italian, who had threatened to shoot John H. Walker, president of the United Mine Workers of Illinois. Last night's tragedy resulted from a quarrel over that incident. Welsh surrendered to the police.

CRYSTAL Domino SUGAR

BOMB INTENDED FOR ALFONSO

Police of Madrid, Spain, Are Convinced of the Plot to Kill King Alfonso Upon His Return from London.

Madrid, Spain, May 25.—Following a night of search and inquiry the police believed yesterday that the bomb exploded Monday night was intended for King Alfonso. The explosive was hurled at the monument erected to the victims of the attempt against his majesty on his wedding day, May 31, 1902, but the authorities think that the original intention of the anarchist was to strike down the king upon his arrival at the railway station on his return from London.

As a result of this conviction the plans for King Alfonso's return have been changed, and it is now arranged for him to enter the city by automobile.

The bomb-thrower, who was wounded by his own weapon, proved to have been a South American. Like Manuel Morales, who was believed to have headed the conspiracy against the king four years ago, the South American committed suicide when he found that his capture by the police was imminent. The police also point out that the man used a bomb constructed much like that employed by Morales and which caused the deaths of twenty-three persons.

Anxiety is always felt for King Alfonso when he leaves the capital, and the affair of Monday night has increased the nervousness of the police authorities.

CHINESE LOAN AGREEMENT.

Instrument Signed in Paris Gives Four Powers Equal Rights.

Paris, May 25.—The Hankow-Szechuan railway loan agreement was signed yesterday. The signers are representatives of financial groups of the United States, France, Great Britain and Germany. The agreement provides for a loan to the Chinese government of \$50,000,000 for railroad construction.

A formal statement issued by the representatives of the financiers announces that "the basis of the agreement is absolute equality between the four groups," in which the Americans with the consent of their colleagues are included. The statement points out that the agreement further assured an equality of treatment in the matter of tenders for supplies.

LIBERIA NOW AT PEACE.

Trouble with the W.M. Tribes Seems to Be at an End for the Present.

Washington, May 25.—The trouble in Liberia with the wild tribes seems at an end for the present. A message from Minister Lyons at Monrovia received at the state department says that the chiefs of the turbulent tribes on the coast have taken the oath of allegiance and that those of the interior will do so during the present week. This, the minister thinks, will put an end to the disturbances.

MORE RIOTS NEAR CHANGSHA.

General Unrest and Anti-foreign Sentiment Reported Spreading.

Shanghai, May 25.—Native riots occurred at Changsha, thirty miles north-west of Changsha, last Saturday. A considerable portion of the city was burned. The Lutheran church was destroyed by fire. The general unrest and anti-foreign sentiment are spreading.

PERU ACCEPTS.

Agrees Unreservedly to Arbitration with Ecuador.

Washington, May 25.—The government of Peru has formally accepted without reserve the mediation of the United States, Brazil and Argentina in the boundary dispute between Peru and Ecuador.

Fatal Sleep Walking.

Lowell, Mass., May 25.—Michael Lee, aged 48, fell down a flight of stairs at his home, 75 Church street, about 6 o'clock yesterday morning, and died three hours later at a hospital. He was said to be a somnambulist.

R&G CORSETS

Faultless in every detail.

WITNESSES TELL STORIES

Prosecution Presents Its Evidence in Richmond Case

MOTIVE FOR THE MURDER

Woman Charged with Killing Stuart McTavish Last July Faces a Jury in Cambridge, Mass., Court.

Cambridge, Mass., May 25.—The prosecution called its first witness, Wilfred Adams, when the trial of Mrs. Elizabeth Richmond, charged with the murder of Stuart McTavish in East Cambridge last July, was resumed yesterday.

McWilliams testified that he was a friend of the murdered man, both having been born in the same town in Prince Edward Island.

On Tuesday night, July 20, he said, he met McTavish, and both went to the hotel Florence, of which Mrs. Richmond was the proprietress. A bottle of whiskey was produced and Mrs. Richmond joined in the drinking.

McTavish told McWilliams at that time that he was working at the insane hospital at Gardner and that he was to be best man at his sister's wedding the next day.

McWilliams came to the house the following two nights, but saw neither McTavish nor Mrs. Richmond, and on Thursday night found McTavish's room locked. He identified a revolver, which he said he saw Mrs. Richmond handling.

The blood-stained clothing of McTavish was introduced as an exhibit and examined by the jury. Cross-examined by attorney Glog for the defense, McWilliams said that when he went to bed with McTavish, the door was open and there was no way to lock it. The attorney then tried to bring out evidence tending to show affection between McTavish and Mrs. Richmond, but it was ruled out. McWilliams was also questioned regarding a boarder named Clifford.

LEOPARD, LOOSE, SCARES WOMEN IN PARK ZOO

Flee with Children in Fear When Vicious Animal Escapes and Climbs to Top of Cage for Leap.

New York, May 25.—Hattie, a vicious leopard, escaping from her cage in the Central Park zoo yesterday, caused a panic among 100 women and children, who fled in terror from the snarling animal, which crouched for a spring from the top of a high cage.

The doors of the animal house were quickly closed and head keeper Snyder, armed with a long pole, tried to catch the animal. The leopard made a 20-foot leap to the hippopotamus tank and then crawled into a corner. The hippo merely weighed its ears in contempt of the victor and the leopard was finally cornered and bagged.

BEGS FOR ANOTHER LEG.

Girl Crushed Under Car Pleads with Rescuers to Aid Her Sister.

Camden, N. J., May 25.—Pleasant, a Girl Policeman, will get me another leg? I can't help mother any more if they don't." Torn and crushed by a trolley car which ran over her as she crossed the street in front of her home to get ice for her little sister, Mary E. Walk, 10 years old, who lives at 217 Federal street, forgot her own pain and misfortune for her invalid mother.

While men lifted her from under the truck, where her dress had become entangled in the brake rigging, she refused to cry with the pain. She pleaded to be taken home rather than to the hospital, and when the ambulance drove up said to the policeman: "Won't you please get some one else to get the ice? Sister has a fever and is awful ill."

At the West Jersey Homoeopathic hospital the surgeons amputated the girl's left leg.

WASHINGTON'S ONLY HEIR.

George M. Roberts of Ohio Makes This Assertion.

Washington, May 25.—Publication of the fact that Congress might pay the claims of heirs of George Washington, who contended that \$305,000 worth of land was taken from him without warrant of law, has brought out a new claimant to dispute their rights. George M. Roberts of Wellesville, O., has written a letter to Representative Roberts of Massachusetts, chairman of the house committee on private land claims, asserting that he is the only real live heir to those long-forgotten lands of George Washington and that he wants the whole \$305,000. He says he will fully establish his claim just as soon as he recovers the original documents carried to England by John Paul Jones.

AGAINST CANNON.

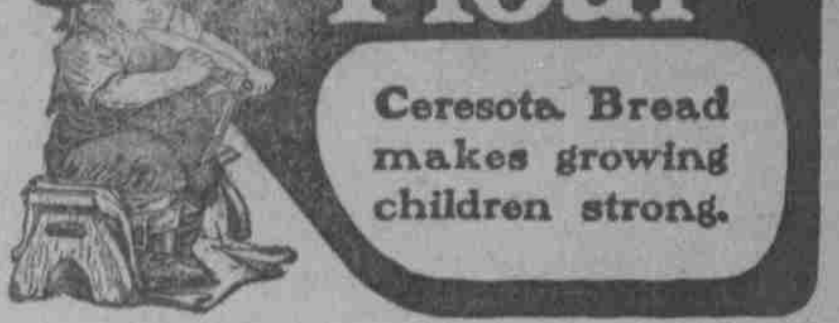

Stand of Eleven Republican Nominees in Ohio.

Cleveland, O., May 25.—Eleven newly chosen Republican Congress nominees in Ohio, eight of them, renouncing certain election in November, have pledged themselves as against the re-election of Speaker Cannon in a poll completed yesterday. One nominee certain of election, General J. Warren Keifer of the seventh district, is openly for the speaker's re-election.

Empire Day in Canada.

Halifax, N. S., May 25.—Yesterday was observed as Empire Day and was a holiday throughout Canada.

Ceresota Flour

FOR THE HOUSEWIFE

Household Wisdom.

To keep kitchen tables white scrub them well with cold water, soap and a little silver sand. Do not use hot water on tables, as it turns them yellow.

Stewed figs or prunes will be found much richer if the fruit is soaked for several hours before stewing. They should be stewed in the same water in which soaked.

Be careful where you place your dressing tables and mirrors. Sunlight will destroy the finest French plate, and it is impossible to restore the backing without considerable expense. Dampness will destroy it in the same manner.

Frying Lard.

To prepare bread crumbs quickly dry bread in the oven after crusts have been removed, then run through the meat chopper, sift and put away in glass jars. The reason many fried things have a flat taste, though the mixture may be highly seasoned, is that the seasoning of the bread crumbs has been neglected. Always mix the crumbs with salt, pepper and, if desired, a drop or two of onion juice before molding.

Strawberry Coupe.

Fill sherbet glasses with vanilla ice cream to within a fourth of the distance from the top. Then cover the cream with a spoonful of strawberry preserve and one or two of whipped cream. The coupe may be prepared at the table by the housewife herself, the vanilla cream being placed before her on a small platter with the whipped cream and the preserve in two glass bowls beside it.

Improved Refrigerator.

An improved kind of refrigerator invented by a Georgian man is shown herewith. In place of the row of shelves with which the ordinary refrigerator is equipped, this new ice chest has a series of drawers, which swing in and out and which make the articles kept within much easier of access. The ice compartment is at the top, as in most other types, and alongside it in one corner is a row of shelves.

Rhubarb is grown extensively in China.

Ozone ventilating machines are now common in many large buildings.

The first automobile show for western Canada will be held in February, 1911.

In Spain the old style charcoal brazier is still in use for heating purposes.

England's newest vessel of the Dreadnought type, the Neptune, has a displacement of 20,250 tons.

There are now in German East Africa seventeen medium and smaller European plantations having some 5,000 acres in cotton and twenty-four plantations with approximately 8,000 acres in cotton as a cash crop. Twelve cotton planting associations are developing 210,000 acres, planting at the rate of about 20,000 acres per year.

SPENT A FORTUNE ON SKIN TROUBLE

But Lost All Hope of Cure—Grew Worse and Worse in Spite of Many Doctors and Three Years of Hospital Treatment—Inflammation Made Her Almost Crazy with Pain.

CURED BY TWO SETS OF CUTICURA REMEDIES

"I began to have an itching over my whole body about seven years ago and this settled in my limbs, from the knees to the toes. I went to see a great many physicians, a matter which cost me a fortune, and after I noticed that I did not get any relief that way, I went for three years to the hospital. But they were unable to help me there. I used all the medicines that I could see but became worse and worse. I had an inflammation which made me almost crazy with pain. When I showed my foot to my friends they would get really frightened. I did not know what to do. I was so sick and had become so nervous that I positively lost all hope."

"I had seen the advertisement of the Cuticura Remedies a great many times but could not make up my mind to buy them, for I had already used so many medicines. Finally I did decide to use the Cuticura Remedies and I tell you that I was never so pleased as when I noticed that, after having used two sets of Cuticura Soap, Cuticura Ointment and Cuticura Pills, the entire inflammation had gone. I was completely cured. I should be only too glad if people with a similar disease would come to me and find out the truth. I would only recommend them to use Cuticura. Mrs. Bertha Sachs, 1621 Second Ave., New York, N. Y., Aug. 20, 1909."

"Mrs. Bertha Sachs is my sister-in-law and I know well how she suffered and was cured by the Cuticura Remedies after many other treatments failed. Morris Sachs, 321 E. 89th St., New York, N. Y., Secretary of Deutsch-Österreichischer Verein, Kommerzieller Beauftragter des Kaiserlichen Handelsministeriums."

A single set of Cuticura Remedies, costing but one dollar, consisting of Soap to cleanse, Ointment to heal and Pills to purify, has frequently cured chronic cases of torturing, disgusting humors of infants, children and adults when the best medicines known to the profession had failed. Guaranteed absolutely pure. Cuticura Remedies are sold throughout the world. Potter Drug & Chem. Corp., Dept. 100, 140 Columbia Ave., Boston, Mass., and all druggists. Book, an Authority on Skin and Scalp Diseases.

Glass Cleaning Hint.

Place pulverized pumice stone between the layers of a folded piece of soft muslin and attach around the edge to keep the powder from spilling. Wipe lamp chimneys or windows with this dry cloth, and they will become clean and sparkling almost instantly. Enough powder will remain in the cloth to use several times.

A Laundry Hint.

Few people know how to hang sheets properly upon the line. Shake them well while still wet and hang them with the hems together and the hem edge pinned to the line. This prevents whipping the corners and lessens the wear and tear, while the sheet will need less pulling into shape for the ironing.

Nest Gloves.

In the interest of fresh, neat looking gloves they should be placed in paper as soon as they are removed, or at least should go in the glove box.

Rolling together in a wad gloves gloves a rumpled, worn look. They should be stretched flat and, above all, should not be kept in a damp place, as they are liable to spot and mold.

Black gloves which have become worn at the seams can be freshened by putting a few drops of jet black ink in a teaspoonful of olive oil. Paint the shabby places with this mixture and a small camel's hair brush.

Light gloves only slightly soiled can be cleaned by washing in cornmeal or French chalk. This saves the risk
